

AAAI-05 WORKSHOP ON INFERENCE FOR TEXTUAL QUESTION ANSWERING

WORKSHOP PROGRAM

Saturday, July 9

- 9:00-9:30 *Textual Inference by Combining Multiple Logic Programming Paradigms*
C. Baral, G. Gelfond, M. Gelfond, Richard B. Scherl
- 9:30-10:00 *Moving QA Towards Reading Comprehension Using Context and Default Reasoning*
C. Clark, D. Hodges, J. Stephan, D. Moldovan
- 10:00-10:30 *Using AnsProlog with Link Grammar and WordNet for QA with Deep Reasoning*
L. Tari, C. Baral
- 10:30-11:00 Coffee Break
- 11:00-11:30 *Question Generation for Learning by Reading*
L. Ureel II, K. Forbus, C. Riesbeck, L. Birnbaum
- 11:30-12:00 *Question Answering Based on Temporal Inference*
S. Harabagiu, C. Bejan
- 12:00-13:30 Lunch Break
- 13:30-14:00 *Syntactic and Semantic Decomposition Strategies for Question Answering from Multiple Resources*
B. Katz, G. Borchardt, S. Felshin
- 14:00-14:30 *Model-based Answer Selection*
S. Sinha, S. Narayanan
- 14:30-15:00 *A Basic Logic for Textual Davidsonian Inference*
D. Bobrow, C. Condoravdi, R. Crouch, R. Kaplan, L. Karttunen, T. King, V. dePaiva, A. Zaenen
- 15:00-15:30 *Determining the Plausibility of Answers to Questions*
T. Smith, T. Repede, S. Lytinen
- 15:30-16:00 Coffee Break
- 16:00-16:30 *Knowledge Representation via Verbal Description Generalization: Alternative Programming in Sampletalk Language*
A. Gleibman
- 16:30-17:00 *Description of the KnowItAll Project*
O. Ezioni
- 17:00-18:00 *Panel on Computational Models for Inference in QA*
- 18:00-18:30 *Invitation to the AAAI 2006 Spring Symposium on Formalizing and Compiling Background Knowledge and its Applications to KR and QA*
C. Baral
- 18:30-18:40 Wrap-Up
